OBJECTIVE

A highly motivated and detail-oriented individual seeking an opportunity to leverage my skills in Tally ERP, SAP, and various modules such as SAP PP, Material Management, and Sales & Distribution. Eager to apply my academic knowledge and practical experience in a challenging and growth-oriented role.

EXPERIENCE

Mini Bank Account

- Assisted customers in opening accounts, processing transactions, and providing financial advice.
- Handled account maintenance and supported customers with queries regarding banking services.

TRAINING / COURSES

System Applications and Product Data Processing

SAP (System Applications and Product Data Processing) is an integrated enterprise resource planning (ERP) software that helps businesses manage and streamline their processes across various departments such as finance, sales, production, supply chain, human resources, and customer relations. SAP provides real-time data processing and centralizes business functions to enhance efficiency and decision-making.
